Project No. 13511-001

NOTICE OF SUCCESSIVE PRELIMINARY PERMIT APPLICATION ACCEPTED
FOR FILING AND SOLICITING COMMENTS, MOTIONS TO INTERVENE, AND
COMPETING APPLICATIONS

On October 1, 2012, Igiugig Village Council (IVC) filed an application for a successive preliminary permit, pursuant to section 4(f) of the Federal Power Act, proposing to study the feasibility of the Igiugig RISEC Water Power Project (Igiugig Project or project), to be located on the Kvichak River in the Lake and Peninsula Borough, Alaska. The sole purpose of a preliminary permit, if issued, is to grant the permit holder priority to file a license application during the permit term. A preliminary permit does not authorize the permit holder to perform any land disturbing activities or otherwise enter upon lands or waters owned by others without the owners' express permission.

The proposed project would consist of the following: (1) up to 8 proposed RISEC kinetic energy-to-electrical energy conversion devices having a total installed capacity of 40 kilowatts; (2) a proposed transmission line that will either connect directly to the IVC diesel power plant or a 1,000-foot-long transmission line interconnecting with the Igiugig Village electric distribution system (depending on the location of the RISEC devices); and (3) appurtenant facilities. The proposed project would have an estimated average annual generation of 250 megawatt-hours.

Applicant Contact: AlexAnna Salmon, Igiugig Village Administrator, P.O. Box 4008, Igiugig, AK 99613; phone: (907) 533-3211.
